

## UWL ADVANTAGE

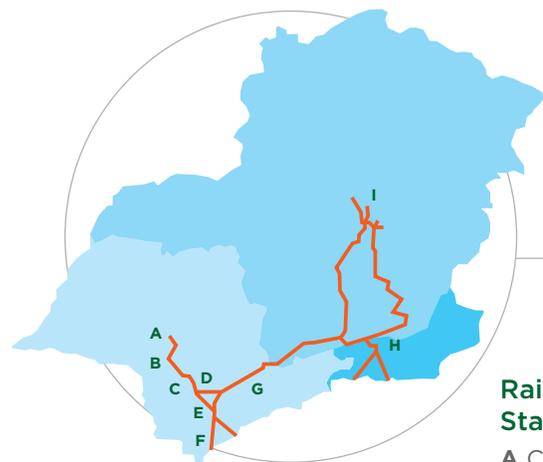

- Lower costs compared to trucking
- Increased safety ensures lower insurance costs
- Avoid any backlogs or delays for loading and unloading – no waiting lines
- Scheduled and guaranteed delivery on time
- Custom solution for shippers with cargo origins or destinations located close to rail ramp
- Integrated partnership with Brazilian intermodal operators
- Brazilian States include: São Paulo, Santa Catarina, Parana, Rio Grande do Sul, Mato Grosso, Minas Gerais, and Rio de Janeiro
- Access to main ports: Santos, Paranagua, Sao Francisco do Sul, Rio Grande and Rio de Janeiro
- Most environmentally friendly way to move freight
- Reduced carbon footprint
- Scalable capacity, shipping regularity and door-to-door service
- Best-in-class customer service

## THE FUTURE OF INTERMODAL IN SÃO PAULO

- Only 2% of the volume of containers used the rail in 2012
- 66% of the trucks in Santos and Guarujá move containers
- The port terminals have doubled their capacity since 2012 in Santos and Guarujá
- The rail capacity on the rail line has increased 4x
- 75% of all volume moved to/from Santos is in the area covered by the Rail in Sao Paulo

Bottleneck congestion at the Port of Santos.
